[Watch Product Video](#)

WHY CHOOSE PIM?

PIM integrates seamlessly with Cirrus8 to share inspection data and automatically uploads completed inspection reports into Cirrus8. PIM also allows you to create a Work Request on site and send directly to CirrusFM.

SIMPLE TO USE

Capture photos, video clips and comments and view completed inspection reports instantly on site or share to anyone and anywhere! Packed with Features - Unlimited Photos. Digital Signatures, Tenant Only Reports. SIRI (Voice to Text). Multi Shot Camera. Markup and Annotate Photos

BOOST PRODUCTIVITY

Ensure consistency by customising inspection areas, pre-populated notes and develop a library of commonly used words to select and use. Using Smart Profiling, Commercial Property Managers can create an Inspection process that suits the way you inspect and the type of properties you manage.

CUSTOMISED REPORTS

Customise your reports to include specific branding, flow and structure of information and present your findings in a way that suits you, your landlords and tenants.

WORK REQUESTS

Include Multiple Photos
Add Priority Status and Include Detailed Description
Sent directly from onsite to CirrusFM

PIM CLOUD DASHBOARD

Complementing the PIM App, use PIM Cloud Dashboard to manage templates, users and integrations. Store, Retrieve and Edit inspections online. High resolution media library for re-use and sharing with landlords, tenants and colleagues.

WHO IS IT FOR?

PIM clients range from owner operators, landlords to businesses with over 20 property managers. It is highly flexible and scaleable.
